

Plastic Tube Container TopPack XPress

High quality single piece packaging with XPress shankholding system. Ideal for precision shank tools such as solid carbide cutters and drills

Material

- outer part: Polypropylene (PP)
- base plug: Polyethylene (PE)

Product Range

- outer part in transparent
- base plug and adapter in various attractive standard colors
- outer parts and base plugs are packed separately in individual cartons

Product features TopPack XPress

The patented XPress shank clamping of TopPack XPress sets new standards in terms of user-friendliness and optimum holding force. As the transparent tube is fitted to the base plug, the diagonal clamping ribs are pressed hard against the tool and ensures secure shank holding. The shank remains loosely held during loading and removal of sensitive and sharp-edged cutting tools, resulting in easier and safer handling during the packaging process.

- XPress plug design for simple and secure loading/removal of tool
- diagonally arranged clamping webs in the mounting base ensure perfect hold
- user-friendly function ensures easier and safer handling of sensitive and sharp-edged cutting tools
- grooves in side of plug assist easy opening/closing
- used in conjunction with end caps increases tool holding and gives extra protection of delicate tools
- outers click securely into place with ratchet mechanism
- durable and reusable
- sturdy, oil, and moisture resistant
- For information on the compatibility between the outer part and the base plug and the resulting usable length, please refer to the last page of the data sheet

Product Range: TopPack XPress
